

New repository

Q Type [7] to search

Create a new repository

Try the new experience

A repository contains all project files, including the revision history. Already have a project repository elsewhere?
[Import a repository.](#)

Required fields are marked with an asterisk (*).

Owner *

Repository name *

esteban-195

devops-intro-Luis-Esteban

devops-intro-Luis-Esteban-Rodriguez-Munoz is available.

Great repository names are short and memorable. Need inspiration? How about curly-octo-invention ?

Description (optional)

Public

Anyone on the internet can see this repository. You choose who can commit.

Private

You choose who can see and commit to this repository.

Initialize this repository with:

☐ Add a README file

This is where you can write a long description for your project. [Learn more about READMEs.](#)

Add .gitignore

.gitignore template: None

Choose which files not to track from a list of templates. [Learn more about ignoring files.](#)

Choose a license

License: None

A license tells others what they can and can't do with your code. [Learn more about licenses.](#)

You are creating a public repository in your personal account.

```
devops-intro-Luis-Esteban-Rodriguez-Munoz > README.md
1 LUIS ESTEBAN RODRIGUEZ MUÑOZ
2
3 QUE ES DEVOPS?
4 Es la forma en la que trabajan un conjunto de desarrolladores en un proyecto, donde están involucrados quienes desarrollan el código como los de
infraestructura (servidores, redes, despliegues) colaboran y se coordinan para que el software se desarrolle, pruebe y publique más rápido y sin tantos
errores.
5 Es como si los de desarrollo y los de sistemas ya no se tiraran la pelota de quién dañó qué, sino que trabajaran juntos como un solo equipo.
